Our History

It all began with Columbus
He sailed in fourteen ninety-two.

Here he found natives, animals, and exotic plants that grew.

Settlers began to migrate here
For land and jobs and more.
Here was abundance at their hands
Like never before.

Many new colonies were founded;
Our nation had it well.
But then the towns failed real bad,
The reigning powerfell.

Many sovereigns held this land And put claims here and there.

People flocked here to have freedom And government so fair.

Our nation saw independence. In seventeen seventy-six.

Documents were passed and signed,
Those years were like a mix.

Our History con.

Our infant nation saw so much Documents and lots of war.

One of the wars was so horribly bad That in two our nation tore.

To enjoy life we've settled down But are corrupt in many ways. O LORD, please bless America, In our nation's perilous days!

Our Flag

Our flag is a special one Flying high and free.

Other nations look with envy For all the world can see,

That we are America.

Our flag's red, white and blue: Red that's for the bloodshed,

But blue is to stand true. White is for purity and

Fifty white stars there are,

For fifty states under our flag, That are near and far.

George Washington

He was born February 1732 When America was a British colony. Ite looked like his ma, all the people said, Not as though he'd be the Father of his Country.

He fought in the French and the Indian War And what a fine young soldier was he. His ma wanted him to stop messing around But she couldn't stophim, no sirree!

There was peace for a time, but war began When George III overstepped his power. He pitted England against the U.S. And turned Parliament certainly sour.

Young George was the Revolution's War Our armies had won freedom true. Not long after that, George was President, A whole new government came through.

George Washington con.

He served until seventeen ninety-seven Then officially retired with his wife: Martha was there and a comfort to him Easing him through all his strife.

George Washington was old and aging now And at the ripe old age of sixty-seven, He died of pneumonia at his home, And his spirit went up to heaven.

How we've honored our nation's greatest Hero, who brought us to liberty: We've honored him with portraits, statues And states, So his memory still we see.

Washington D.C.

Washington is our capital
The place of our government's seat.
Our President, guests and Congressmen,
Oh, this is where they meet.

Of America today.
Here our nation's heads of state,
Meet guests from far away.

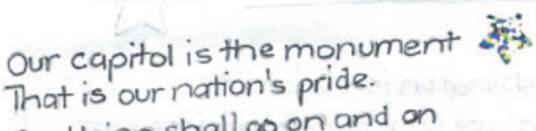

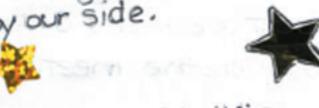

U.S. Capitol

Our Union shall go on and on With God by our side.

Our capital is a damed building That's pure and white as snow. Our joy, our pride, our strength, our head, Our government and so...

Our capital is so important: The key to our nations head, Inspiring us to go forward, Hearing what citizens have said.

Marine Corps

We are United States Marines
We fight for truth and right.
We're proud of the name we have,
To nation's we're a sight!

We are United States Marines
We fight from shore to shore.
Fighting to total victory
And enemies no more.

We are United States Marines
We fight; how well we do!
We keep our honor clean, oh we,
Make soldiers out of you!

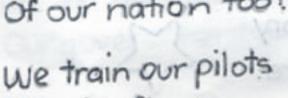

Air Force

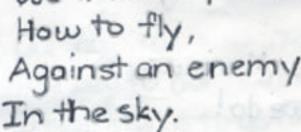

Zoom!Zoom!Zoom! Hey, look how high! One of our Lockheeds Just flew by!

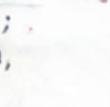

We are the Air Force Strong and true. We're the air defense of our nation too!

of this branch We're proud to be; And of our nation, True and free.

Dedicated to all the men and women who have served, fought, and died for our country, And those who will continue to.
